SUBJECT INDEX

Volume 4, 1959

Current Reviews

Complications in strabismus and their avoidance, 691
Endotoxin, general and ocular effects, 581
Hyphema, traumatic, report of 100 cases, 2
Involutional diseases of macula, 592
Macula, involutional diseases, 592
Microbiology, ocular, recent advances, 425
Strabismus, complications and their avoidance, 691

First Symposium on Uveitis

Berens, Conrad, and Leopold, Irving H.: Alfred P. Sloan Foundation, Inc. symposium, 212
Fremont-Smith, Frank: Introductory remarks, 217
Silverstein, Arthur M.: Hypersensitivity, 221
Hogan, Michael J.: Granulomatous uveitis in man and experimental animals, 225
Foerster, Helenor Wilder: Pathology of granulomatous uveitis, 283
Woods, Alan C.: Nongranulomatous uveitis in man and experimental animals, 327
Zimmerman, Lorenz E.: Lens induced uveitis, 370
Uhr, Jonathan W.: Desensitization in experimental delayed hypersensitive animals, 380
Autobiographical sketches of participants, 408

Refresher Lectures

Mechanisms of glaucoma, 47
Treatment of certain neuro-ophthalmic disorders, 601

Visits

Department of Ophthalmology, State University of Iowa, 113
University of California Medical Center, 177
Visit to Wilmer Clinic, 33

Clinical Practice

Accommodation

Functional spasm of accommodation, 543

Cornea

Anatomy and physiology, aspects in corneal surgery, 721
Cornea, significance of color change, 536
Cystinosis, 632
Gargoylism, ocular signs, 634
Ocular signs in gargoylism, 634
Physiology, and anatomy, aspects in corneal surgery, 721
Surgery, corneal, anatomical and physiological aspects, 721

Diagnosis

Dye-test, toxoplasma, specificity, survey data on New Haven, 483
Toxoplasma dye-test, specificity, with survey data on New Haven, 483

Diagnostic aids

Clinical laboratory as diagnostic aid to ophthalmologist, 514

External diseases

Cornea, herpetic diseases, statistical studies of 1926–1955, 486
Herpetic diseases of cornea, statistical studies of 1926–1955, 486
Keratoconjunctivitis, phlyctenular, recurrent, treated to desensitization to tuberculin, 623
Shipyard eye, story, 622
Statistical studies of herpetic diseases of cornea during three decades, 1926–1955, 486
Tuberculin, desensitization to, treatment of recurrent phlyctenular keratoconjunctivitis, 623

Geriatric ophthalmology

Gerontology, social, and geriatric medicine, 726

Glaucoma

Aqueous, outflow, tonographic study of effect of Priscoline in glaucoma simplex, 513
Glaucoma after radiotherapy, 511
Glaucoma simplex, tonographic study of effect of Priscoline on outflow of aqueous, 513
Pressure, episcleral venous, effect of Priscoline, 512
Priscoline
effect upon episcleral venous pressure in man, 512
tonographic study of effect on aqueous outflow in glaucoma simplex, 513
Radiotherapy and subsequent glaucoma, 511

Glaucoma diagnosis

Flicker perimetry, diagnostic value in chronic simple glaucoma, 618
Glaucoma, simple, chronic, diagnostic value of flicker perimetry, 618
Lamina cribrosa excavation, syndrome, pseudoglaucoma, 616
Pseudoglaucoma, syndrome of excavation of lamina cribrosa, 616

Extraocular muscles

Diplopia, traumatic, 714
Esotropia, accommodative, 716
Pleoptics, 718
Rolling movements, compensatory, of eyes (film), 720
Torsion, false, problem, 719

Lacrimal apparatus

Congenital dacryostenosis, treatment, 544
Dacryostenosis, congenital, treatment, 546
Lacrimal gland, denervation, 88

Lacrimal system

Cortisone plombage, treatment of dacryostenosis, 161
Dacryostenosis, treatment with cortisone plombage, 161

Lens

Cataract extraction, inferior approach, following filtering operations for glaucoma, 85
Glaucoma, inferior approach to cataract extraction after filtering operations, 85

Lids

Edema, periodic, angiospastic, recurrent, of lid in children, 636
Styes, recurrent, treatment, 635
Treatment of recurrent styes, 635

Muscles

Muscles, extraocular, in systemic disease, 637
Systemic diseases, study of extraocular muscles, 637

Ocular muscles

Myopathy, thyrotoxic, report of 20 cases. 160

Ocular rigidity

Exophthalmos, endocrine, changes in ocular rigidity, 530
Ocular rigidity, changes, in endocrine exophthalmos, 530

Ocular surgery

Glaucoma, malignant, 149

Ocular tension

Ocular tension, relation between tonography and phasic variation, 87
Tonography and phasic variation in ocular tension, 87
Variation, phasic, and tonography in ocular tension, 87

Optic nerve

Gliomas of optic nerve, 728

Optic pathways

Arachnoiditis, chiasmal, 532
Atrophy of optic nerve after previous roentgen treatment of chiasmal region and optic nerves, report of 2 cases, 534
Chiasmal arachnoiditis, 532
Optic nerve, atrophy, after previous roentgen treatment of chiasmal region and optic nerves, report of 2 cases, 534
Roentgen treatment of chiasmal region and optic nerves followed by atrophy of optic nerve, report of 2 cases, 534

Orbit

Diplopia, and eye muscle imbalance, controlled correction in orbital and zygomatic fractures, 152
Fractures, orbital and zygomatic, controlled correction of diplopia and eye muscle imbalance, 152
Imbalance, eye muscle, and diplopia, controlled correction in orbital and zygomatic fractures, 152
Tumors, orbital, review, 151

Pupil

Accommodation in Holmes-Adie syndrome, study of 15 patients, 488
Dilatation, reflex, mechanisms in pupil, 91
Holmes-Adie syndrome, accommodation, study of 15 patients, 488
Mechanisms of reflex dilatation of pupil, 91

Refraction

Acuity, low visual, optical aids, 651
Adaptation to accommodative impairment, theory, 654
Alterations in refraction and clinical significance, 648
Aniseikonia, with notes on Jackson-Lancaster controversy, 741
Anisometropia, problems, 538
Diet and myopia in children, 740
Eyeglasses as therapeutic agent, 734
Impairment, accommodative, theory concerning adaptation, 654
Measurement of refractive power by photoelectric means, 733
Microlenses, fitting, clinical experience, 154
Myopia, relation to diet in children, 740
Optical aids for low visual acuity, 651
Photoelectric measurement of refractive power, 733
Presbyopes, reading and working distance, survey, 541
Problems of anisometropia, 538
Through a glass, darkly, 30
Vision screening program, improved, in New Haven schools, case history, 738

Retina

Adrenal cortex, role in diabetic retinopathy and nephropathy, 518
Aneurysm, congenital arterio-venous, of retina, 523
Cerebral vasospasm, 524
Congenital arterio-venous aneurysm, 523
Cyancobalamin (vitamin B_{12}) and diabetic retinopathy, 520
Detachment, retinal, technique of scleral indentation with plastic plugs, 20
Diabetes mellitus
  associated with vascular disease, effect of rice diet, 629
  occurrence with proliferative retinopathy, review of 847 cases, 626
Diet, rice, effect on diabetes mellitus associated with vascular disease, 629
Indentation, scleral, by means of plastic plugs in retinal detachment surgery, 20
Macroglobulinemia, Waldenström's, clinical and pathological report of case resembling multiple myeloma, 529
Micrometry, retinal vascular, using measuring ophthalmoscope, 521
Nephropathy, and diabetic retinopathy, role of adrenal cortex, 518
Night blindness, atypical, 624
Ophthalmoscope, measuring, in retinal vascular micrometry, 521
Plastic plugs, use in scleral indentation in retinal detachment surgery, 20
Pseudoxanthoma elasticum, case report, 163
Retinopathy
  diabetic, and cyancobalamin (vitamin B_{12}), 520
  diabetic, and nephropathy, role of adrenal cortex, 518
  diabetic, development in 2 cases on tolbutamide therapy, 628
  proliferative, in diabetes mellitus, review of 847 cases, 626
Tolbutamide therapy, diabetic retinopathy developing in 2 cases, 628
Vascular disease, association with diabetes mellitus, effect of rice diet, 629
Vasospasm, cerebral, 524
Vitamin B_{12} (cyancobalamin) and diabetic retinopathy, 520
Waldenström's syndrome (Le syndrome oculaire de la macroglobulinémie), 527

Surgery

Anesthesia
  choice in ophthalmic surgery, 612
  for ophthalmic surgery, 614

Cardiac arrest, prevention in ocular surgery, 613
Cataract
extraction, development of successful technique, 608
extraction, simultaneous, binocular, 750
and megalocornea, 607
surgery, 609
surgery, anesthesia and operative technique, 498
surgery, new approach using chemical substances, 502
Chemical substances, use in cataract surgery, 502
Entropion in Hong Kong, 494
Hemorrhage into lens, complication of intraocular surgery, 496
Intra-ocular foreign body, analysis of 272 cases, 491
Iridencleisis, 751
Lens, hemorrhage, complication of intraocular surgery, 496
Megalocornea and cataract, 607
New approach to cataract surgery using chemical substances, 502
Ophthalmic surgery
choice of anesthesia, 612
in Europe, impressions, 753
Surgery in aged, special problems, 493
Zonulolysis, enzymatic, contribution to crystalline lens surgery, 501

Systemic disease

Atherosclerosis, primary hepatic or vascular disorder?, 506
Cirrhosis, juvenile, and hepatolenticular degeneration (Wilson's disease) in same family, 504
Hepatolenticular degeneration (Wilson's disease)
juvenile cirrhosis in same family, 504
report of case diagnosed biochemically before clinical manifestations, 505
Histoplasmosis, editorial, 510
Wilson's disease. See hepatolenticular degeneration

Therapeutics

Acetazolamide therapy with renal complications, 711
Achromycines, investigations on concentration in aqueous humor and vitreous humor of rabbit eye, 644
Amphotericin B in successful treatment of chronic histoplasmosis, 167
Anesthetic agents, local, new, pharmacological examination, 97
Anesthesia, are advances real or apparent, 99
Antibiotic, tetracycline, greater and more sustained antibacterial activity with demethylchlortetracycline, 28
Anticoagulants, coumarin-type, relation of hemorrhage and thrombosis during treatment, 22
Antrenyl as preanesthetic anticholinergic, 96
Aralen. See chloroquine
Benzocaine-urethane solution in ophthalmology, use in management of blepharospasm, 481
Blepharospasm, management with benzocaine-urethane solution, 481
Boric acid poisoning in infant, 94
Carbocaine, comparison with procaine, lidocaine and tetracaine, 97
Chloroquine (Aralen) therapy
corneal epithelial changes, 475
phosphate, corneal complication, 474
Complication
corneal, of chloroquine (Aralen) phosphate therapy, 474
renal, associated with acetazolamide therapy, 711
Corneal epithelial changes occurring during chloroquine (Aralen) therapy, 475
Cortisone and hydrocortisone, local application in eye, experimental studies, 480
Decamethylene bis neostigmine (BC-48), bromide, use in treatment of ocular hypertonias, 706
Diamox
and Neptazane, carbonic anhydrase inhibitors, specificity and comparative activity on animal and human eyes, 708
in treatment of glaucoma, 710
Drugs, doctors and directives, 643
Edathmil disodium (Na 2-EDTA), intravenous chelating agent, effect on 3 cases of sarcoidosis, 470
Experimentation in man, 169
Eye, rabbit, investigations on concentration of achromycines in aqueous and vitreous humor, 644

Fibrinolysin (plasmin), treatment of thrombosis, 23
Glaucoma, treatment with Diamox, 710
Hemorrhage, relation to prothrombin during treatment with coumarin-type anticoagulants, 22
Histoplasmosis, chronic, report of patient treated with amphotericin B, 167
Hydrocortisone and cortisone, local application in eye, experimental studies, 480
Hypertonias, ocular, treatment with bromide of decamethylene bis neostigmine (BC-48), 706
Intoxication, anticholinesterase, treatment with oximes, 164
Neptazane and Diamox, carbonic anhydrase inhibitors, specificity and comparative activity on animal and human eyes, 708
Novobiocin, ophthalmic use, 476
Ophthalmic solutions, comment, 713
Oximes, use in treatment of anticholinesterase intoxication, 164
Thrombosis
relation to prothrombin during treatment with coumarin-type anticoagulants, 22
treatment with fibrinolysin (plasmin), 23
Penicillin G, oral, comparison with penicillin V, 472
Penicillin V, comparison with oral penicillin G, 472
Pharmacological examination of new local anesthetic agents, 97
Plasmin. See fibrinolysin
Poisoning, boric acid, in infant, 94
Premarin in intraocular surgery, 471
Prophylaxis of rheumatic fever and rheumatic heart disease, 640
Prothrombin, relation of hemorrhage and thrombosis during treatment with courmarin-type anticoagulants, 22
Pyretotherapy in ophthalmology, observations in 60 cases treated with Pyrexal, 646
Rewards and fairies in medicine, 101
Rheumatic fever and rheumatic heart disease, prophylaxis, 640
Ristocetin therapy, hematologic complications, relation between dose and toxicity, 26
Sarcoidosis, 3 cases, effect of intravenous chelating agent, Edathmil disodium (Na 2-EDTA), 470
Surgery, intraocular, use of Premarin, further studies, 471
Tetracycline blood levels, enhancement, 24
Demethylchlortetracycline, new tetracycline antibiotic, 28

Tonometry

Tonometry, comparison of scleral and corneal, 157

Trauma

Eye injuries in children, 544

Vitreous

Vitreous body, normal, biomicroscopic structure, 723

Basic Sciences

Anatomy

Chamber angle studies in developmental glaucoma, 106
Glaucoma, developmental, chamber angle studies, 106

Bacteriology

Antibiotic agents and cortisone, effect on experimental pulmonary aspergillosis, 664
Antibiotics and sulfonamides, sensitivity of micro-organisms in conjunctivitis, 561
Aspergillosis, pulmonary, experimental, effect of cortisone and antibiotic agents, 664
Conjunctivitis, sensitivity of micro-organisms in, to sulfonamides and antibiotics, 561
Cortisone and antibiotic agents, effect on experimental pulmonary aspergillosis, 664
Herpes simplex infections, influence of specific antibody in tissue culture, 559
Micro-organisms, sensitivity in conjunctivitis to sulfonamides and antibiotics, 561
Specific antibody, influence on herpes simplex infections in tissue culture, 559
Sulfonamides and antibiotics, sensitivity of micro-organisms in conjunctivitis, 561

Biochemistry

Biochemical ophthalmological survey, and 2 cases of galactose cataract, 108
Cataract, experimental, in protein deficiency, 556
Cataract, galactose, report of 2 cases, and biochemical ophthalmological survey, 108
Protein deficiency, production of experimental cataract, 556
Tissue, connective, notes on composition and metabolism, 659

Color vision

Color blindness, value of H-R-R test, 756
H-R-R test, value for color blindness, 756

Congenital defects

Cyst formation in congenital microphthalmos, 673
Microphthalmos, congenital, with cyst formation, 673

Heredity

Connective tissue, genetic factors in diseases, 669
Disease, heredity aspects, 667
Genetic factors in diseases of connective tissue, 669
Hereditary aspects of disease, 667

Microbiology

Echinococcus disease in United States, 769
Fungistasis of hydrocortisone and certain of its analogues, 771
Hydrocortisone, fungistasis of, and certain of its analogues, 771
Lesions, granulomatous, expression of hypersensitive state, 662
Should wounds be covered?, 663
Viruses, new knowledge, 772

Optics

New instruments for problems in optics, 31

Pathology

Historadiography of ocular tissues, 666
Melanoma, studies relating to sex and survival in human melanoma, 775
Ocular tissues, historadiography, 666

Pharmacology

Acetazolamide, failure to alter toxicity of aqueous humor, 550
Anesthetics, pharmacological testing, 777
Aqueous humor, failure of carbonic anhydrase inhibition by acetazolamide to alter toxicity, 550
Cocaine, newly found action, 173
Drugs, new, clinical tests, 779

Physiology

Accommodation, ocular, role of sympathetic nervous system, 766
Action potential of optic nerve, studies, 553
Cell degeneration, visual, hereditary, use of electroretinogram, 762
Corneal reflex, hormonal control in frog, 554
Electroretinogram in hereditary visual cell degeneration, 762
Hormonal control of onset of corneal reflex in frog, 554
Nervous system, sympathetic, role in ocular accommodation, 766
Optic nerve, studies on action potential, 553

Space Ophthalmology

Acceleration
effects on human subjects, 678
in man and animals, wide range investigations, 568
Aviation and preventive medicine in private practice, 566
Ocular effects of atomic radiation, 676
Physiological measurements in 100 senior airline pilots, 20 year study, 563
Preventive and aviation medicine in private practice, 566
Private practice, preventive and aviation medicine, 566
Radiation, atomic, ocular effects, 676
Vision, vestibular interference in flight, 781
Vestibular interference with vision in flight, 781
